+ Machined from extruded stock as manufactured by Certain-Teed Corporation

WARNING:

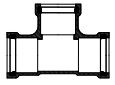

Frequent or severe cyclical pressure surges (water hammer) can destroy PVC fittings. Please refer to AWWA C907.

The use of anything but properly designed and installed thrust blocks will reduce the life of plastic fittings. Thrust blocks must be of poured concrete only and sized for the soil conditions. Mechanical joint restraint products may also be used.

NOTE: Please call, fax or e-mail for price and delivery of unlisted fittings.
